

# Gift Master

## Electronic Gift Card Program for Small Business

### Gift Master

Is a complete gift card management system.

The system keeps your gift card accounts in a database with the customer information and balance.

The system is easy to use at the point of sale for both adding new accounts and conducting sale transactions.

The system automatically backs up your data to a specific folder on your network.

The menus are simple and straight forward. The graphics are easy to see and use.

Managers can instantly access gift card activity and view up to the minute balance reports.

### Windows Network Compatible

### Gift Master Home Screen

Click on the Gift Master Icon to activate from bottom bar on PC.

The Gift Master main screen and menu will be displayed.

To record a sale using a gift card enter the account number or swipe the customer's card in the card reader.

The screen will display the card number and account balance.

Enter the amount of the sale and compare to the balance shown.

Click on OK and the transaction will be complete and receipt will print.

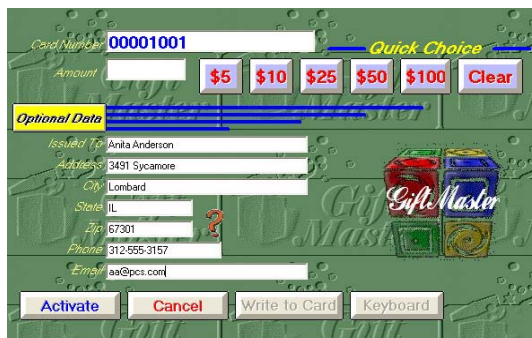

**Purchase Price: \$399**
